Welcome to the Policy page on the Business Intelligence WiKi. From here you can search by title or browse by category. The selected workflow file will automatically render on this page, no additional software is not required.

Policy categories and subcategories are denoted by a folder icon next to their name. To expand a category simply click on its name or folder icon, the category will expand to display its contents and any "nested" categories. Any item with an Adobe icon indicates a policy file and selecting it will display it in the current browser window.

Policy category ➡️ 📁 **Reporting**

Policy file ➡️ 📄 Signal Quick Start Guide

Once a policy file is selected the Adobe menu on the bottom of the screen can be used to navigate, download, or print the file. Just click on the three dots.

The Search Titles option is a live search by document name. As you type, any matching document names are displayed. Simply click or press enter on the highlighted document name to display it.
